Arts and Crafts Supplies

*Design and Instructions
by the BrickNerd Team*

It's time to get crafty! For the art theme in this issue, we designed three mini-build of art supplies you'd find at a craft shop including scissors, a paintbrush and some paint, and an easel and canvas.

The scissors feature back-to-back mudguards for the shape of the handles using a fun SNOT technique made possible with the new 1x1x2/3 brick with a hole in it. They also pivot like a real pair, though we don't recommend using them to cut any paper.

For the paint supplies, you can customize your paint colors and canvas with whatever you want using new 3x3 circle tiles. Also see if you can find the well-placed banana used in the paintbrush.

Lastly, the easel and canvas can be used for many different things. Need a MOC card holder at a LEGO convention? Use the mini easel! Want to create your own 8x8 masterpiece? Go for it! Oh, and those older red butterflies can be substituted with the newer yellow ones too (80674).

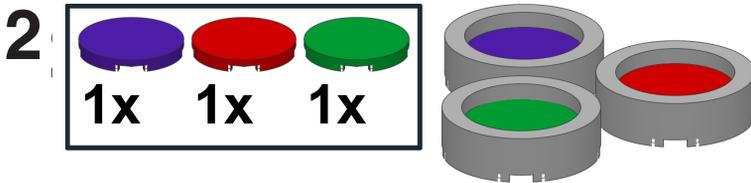

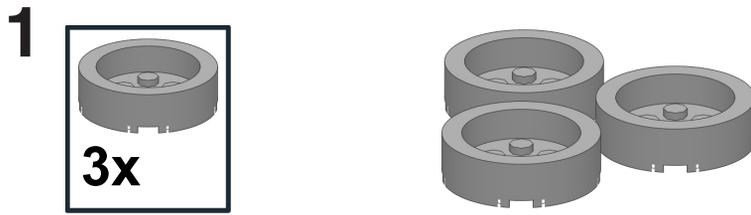

This was a fun collection to design. We hope you enjoy building them just as much as you like to get artistic with the brick!
