## SAVANNAH

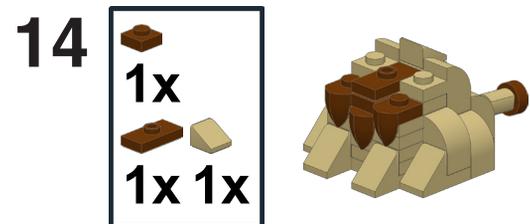

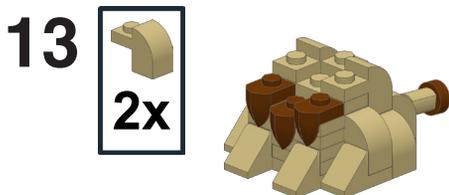

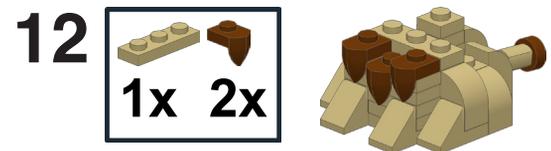

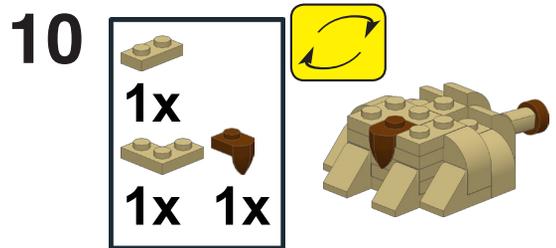

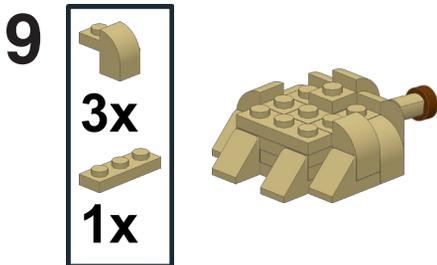

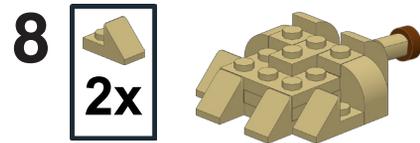

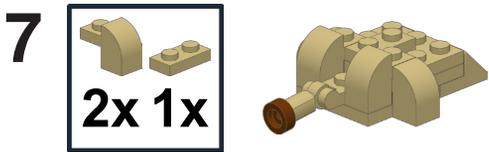

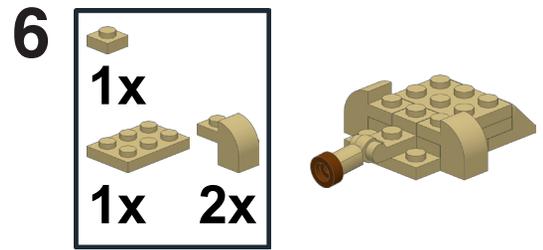

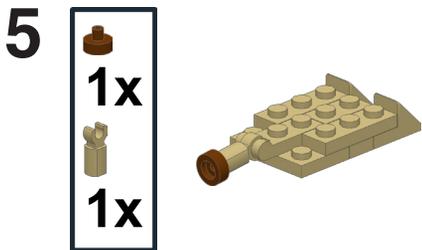

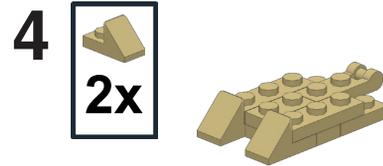

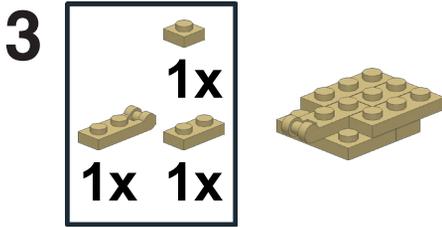

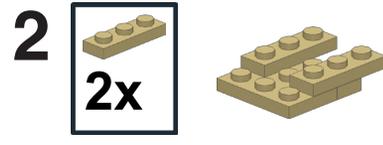

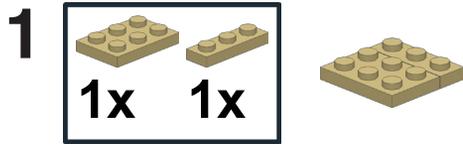

*Design and Instructions  
by Miro Dudas (HumbleBricks.com)  
from BrickNerd*

Let's go on a safari! In honor of the creatures featured in this issue, I designed three iconic animals from Africa: a lion, giraffe and rhinoceros.

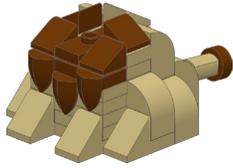

I picked these three animals because I loved watching them at the San Diego Zoo Safari Park, where I took my family for many years. I loved seeing them move so gracefully, yet still embody so much character.

That's why I made BrickPais. I wanted to capture these animals in a LEGO form so small so that even a child could hold them in their palm of their hand. I tried to imbue them with as much character as possible so they could be a desk or nightstand buddy.

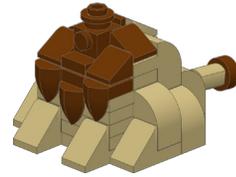

Their heads can be posed so they can tilt their heads or even look back at you, bringing them that much more to life. This was a fun collection to design – I hope you enjoy building them!
